Past performance is not a guide to future performance. The value of investments and the income from them is not guaranteed and may go down as well as up and investors may not get back the amount originally invested. Unlike the income from a single fixed income security, the level of income (yield) from a fund is not fixed and may go up and down. Sub-investment grade bonds have characteristics which may result in a higher probability of default than investment grade bonds and therefore a higher risk
